

PRIVATE BERRY PLEADS GUILTY TO MANSLAUGHTER

Additional Sentences Imposed
in Superior Court This
Morning.

At the Tuesday morning's session of the superior court the criminal docket was practically cleared up by County Solicitor Gophtill and Judge Young imposed the following sentences:

Jacobs, Cardin of Newmarket charged with breaking and entering pleaded guilty and was sentenced to one year in the house of correction and to pay a fine of \$100.
James Berry of Portsmouth charged with manslaughter, pleaded guilty to manslaughter in the second degree. His case was continued for sentence to June 9. Attorney John W. Kelley appeared for Berry.
Albert Proctor of Candia pleaded guilty to an assault on his wife and was ordered to pay \$300 a week for her support until otherwise ordered. One juvenile case was paroled in custody of the Probation Officer during the day's adjournment.

50 NEAR DEATH ON DESTROYER

Fireman Sees Steam Coming
from Crack in Boiler Tube
Just in Time.

San Diego, Cal., May 26.—The lives of 50 sailors on the torpedo boat destroyer Paul Jones were endangered Friday at the hour of the explosion on the destroyer Stewart, according to information which got out today. The Paul Jones was making a speed test when a fireman noticed steam escaping from a crack in the tube of one of the boilers. The discovery was in time to avert a possible disaster.

The Paul Jones boilers have been condemned and the ship will be sent at once to Mare Island navy yard for repairs.

REPAIRS TO FIRE ENGINES

Specifications of Work to Steamers
Nos. 2 and 3 and What it Will
Cost the City

Engine No. 3, of the fire department, at present under repairs at the shop of J. H. Pilleul & Son, of Manchester, will be completed in the prescribed time, 30 days. Engine No. 2 will then go to the hands of the Manchester mechanics. It will be seen from the agreement that both engines will be practically new when the work on each is completed. The contract between the city and the Manchester firm is the following:

Contract for Repairs to Steam Fire Engine No. 2.

Boiler—A new cone top boiler, 22x66, double strap butt joint, shell 5-16, tube sheet 3-8 in. thick, to contain 194 1-2 x 20, 15 gauge copper tubes, re-inforced plates, 28x11x1-4 and 8x11 1-2x1-4 for steam cylinders and pumps, 6 1-2x6 1-2 for safety valve, 24x9 1-2 x 3-16 for frames.

Hand hole in top of boiler, wash out plugs at crown sheet, also at leg of boiler. Shell to be stamped 58,000 lbs. T. S. for 120 lbs. of steam. All stay bolts to be 7-8 in., to have Russia iron jacket and nickel plated trimmings.

Steam cylinders—To have the packing retightened; the steam and exhaust pipes to have outside connections to the boiler, and a unkenheimer oil pump to be put on.

Pump—Valve plates to be repaired, and new vulcanized rubber valves, new springs and Vm leathers put in. A relief valve to be placed on the pump similar to that now on Engine No. 3.

Rods—Link rods and alides to be turned up.

Ped pump—To be new, on the left side.

Puff pan—To have new bottom sheet.

Springs—To be set up and re-tempered.

Burning gear—To be tried up and put in good order.

Plating—All new parts to be plated, also small parts such as valves, checks, etc.

Painting—Engine to be painted red. Grate—A new grate to be put in.

Valves and gates—All valves and gates to be ground.

Transportation—To be paid by the City of Portsmouth.

Time limit—The engine to be finished and returned to Portsmouth within ninety days from the day it leaves this city.

The contractor further agrees to insure the boiler for one year with the Hartford Steam Boiler Insurance and Inspection Co., to place a steam gauge at the rear of the boiler, to use a radiator safety valve with lever lift and to make any minor repairs not covered by this contract but which may be necessary to put the engine in first class order.

Price—All for the price of \$1,081.00. And in accordance with the bid of the contractor dated April 25, 1913.

AVIATORS HAD A CLOSE CALL IN ENGLAND

Daring Dive From Height of
1200 Feet to Mother
Earth.

Salisbury, Eng., May 26.—Volplaning from a height of 1200 feet in a blazing aeroplane, the British aviator Colwyn Pizey and a passenger, H. Fellows, reached the ground in safety this evening and stepped from the machine just as an explosion of the gasoline tank completely wrecked it.

The aeroplane was in easy flight over the outskirts of the town, when suddenly the carburetor took fire. Breaking the inlet valve, the aviator shut off the gasoline and started a steep valdane. The rush of air fanned the blaze and to those who witnessed the event it seemed as though the men in the machine had but a slight chance for their lives. Tongues of fire swept under the passenger seat, and Fellows drew himself up and clung to the struts while the aeroplane flew down its swift race. Pizey held the wheel in firm grip, although the flames scorched his hands and he succeeded in making a splendid landing. Just as the men sprang from the machine the gas tank blew up, but they practically escaped all injury.

Pizey arrived late this afternoon, from Italy where he had been conducting government tests and was requested to test the biplane. He began his flight late in the evening without an extensive examination of the machine.

He was making a wide circle and had gained a height of 1200 feet over Parkhill, when flames broke out. Notwithstanding that he shut off the gasoline almost instantly, the frame of the biplane took fire.

Pizey pointed the nose of the biplane almost straight toward the earth while his passenger Fellows, sprang up, away from danger. The flaming aeroplane driving at terrific speed toward the earth in the early dusk provided a wonderful spectacle for the small crowd which had gathered to watch the flight.

The horror of the spectator's was turned to joyous amazement when they saw the gritty aviator make a perfect landing. Both men sprang hastily to the ground and were barely clear of the machine when the gasoline tank exploded. Burning liquid was thrown in all directions and the wrecked aeroplane was incinerated before any attempt could be made to save it. The spectators who rushed to the spot found the aviators, without the slightest injury.

S. P. C. A. Man Holds Up
Cattle in Shipment.

Two car loads of cattle which were being shipped away from Vermont to Boston were unloaded in the cattle pen in the Concord freight yard, Sunday by order of Peter Smith agent for the S. P. C. A. He had found that a consignment of cattle was due to arrive, and so sooner had they arrived than he made an investigation. He soon discovered that they needed to be watered and fed and so before he permitted them to proceed he had them cared for. Moreover the Woman's Human Society's agent, who was also present, got into communication with several of the state officials in an endeavor to prevent them from proceeding further, for several were in bad condition. However nothing could be done, as it was an interstate shipment, so Dr. Rowley of Boston was informed of the circumstances, and was on hand to inspect the lot on its arrival.

THE WEATHER

Washington, May 26.—Forecast for Southern New England—increasing cloudiness Tuesday; showers at night or Wednesday; moderate southeast winds, becoming variable.
Local forecast for Portsmouth and vicinity—Tuesday unsettled, followed by showers, warmer; moderate easterly to southerly winds.

COMMITTEE WENT OVER THE SITUATION

Master Builders Claim It Is Im-
possible to Increase Wages
of Carpenters.

An attempt was made to bring the carpenters strike to a head on Monday evening when a committee from the Central Labor Union and the Master Builders met in conference. For two hours the representatives of both organizations went over the situation and the session finally ended in no agreement.

Richard Cooney, William Cogan, and M. B. Clark of the Central Labor Union made several propositions to the Master Builders which they thought would end the trouble and the men would return to work. They asked that the carpenters be given a slight advance in weekly wages and the half holiday matter dropped. In fact, the Central Labor Union delegation were ready to make any amicable agreement in order that the workmen could get a little benefit over the present working schedule. The Master Builders would make no change in the stand they have held since the strike began. They claim that it is impossible for them to increase the wages from the fact that they could not compete with outside firms, and some of them would be compelled to go out of business. They would gladly take all the mechanics back to work under the present rate of wages and hours and recognize them as union men. That was the best they could do under the conditions that exist. The Central Labor delegates will report the conference results to the union at once.

S. S. Trueman, E. A. Patterson, and E. N. McNabb represented the builders in the conference.

SURPRISE PARTY.

Edward Ewen Is Remembered
on His 16th Birthday.

Edward Ewen of Burditt street was given a pleasant surprise on Monday evening when about twenty of his young friends invaded his home in recognition of his sixteenth anniversary of his birth. He had attended the Sunset League baseball game and on his return home was greeted by his friends. The evening was pleasantly spent, music and games serving to pass the time only too quickly to suit the young guests. During the evening Raymond Fullam in behalf of those present presented Master Ewen with a set of gold linked cuff buttons. Refreshments of ice cream and cake were served. The guests took their departure for home at 11 o'clock after a highly enjoyable evening.

ELKS DEFEAT K. OF C. IN A CLOSE GAME

LaBeau's Error Responsible for Elks
Win--Sanfacon Played a Star
Game.

The Elks defeated the K. of C. on Monday evening, through the error of LaBeau who dropped Kelley's throw to the home plate allowing York to score in the third when it should have been the third out and a single by DeLochen completed the trick. The K. of C. got their single tally in the second when Cragen allowed Mates to go through his legs. Other than this it was a good game although Kelley and DeLochen gave a rather weird exhibition of running bases to the third with only one score.

The Elks had York of Rochester in the box and he pitched a good

man started for third and was run down and Kelley run around second and started for third without even looking for the ball. The result that he was tagged.

The Game in Detail
The Knights were up and DeLochen made a long hit to left which Seth Hansen made easy work of. Kelley followed with a hard line drive to center that Cragen got on the jump. O'Connor hit to Sanfacon who threw to Swasey and he allowed the ball to drop. McFarra started to center and O'Connor tried to make third and was thrown out by Cragen.

Hansen was thrown out by Riney, Hughes fell a victim to DeLochen and DeLochen without offering at a ball was called out on three good strikes.

No score.

SECOND INNING

O'Brien opened with a single but was forced at second on LaBeau's grounder to York. Mates singled over second and the ball rolled through Cragen's legs and LaBeau scored and Mates went to second. Riney had his eagle eye on Mates and called him out for not touching first. Bertwistle fled to Davis.

Sanfacon singled Swasey trying to hit put up a pop fly that LaBeau made a great catch of. Davis hit a hard one that McFarra stopped and threw him out at first and Cragen was thrown out by O'Connor.

Score K. of C., 1; Elks 0.

THIRD INNING

Poor base running spoiled the K. of C. chance. Riney fanned DeLochen hit to Sheehan who threw so wild that DeLochen went to second. Kelley hit to Hughes and DeLochen attempted to go to third but was run down between bases. Kelley continued on to second and not called started for third but was easily tagged by Sanfacon.

Sheehan was hit and walked, but was forced at second by York's grounder to Riney, who ran over and tagged Sheehan. York's single, second, Hansen gave DeLochen a pop fly and Hughes singled to right and York started for home. Kelley's throw in had him out, but LaBeau dropped the ball and McFarra made a lightning recovery and tagged York who came back to touch the plate but he was declared safe. Hughes in the mix-up landing on third from where he scored when DeLochen dropped one over DeLochen's head. Sanfacon singled but they were left on bases when Swasey's drive was taken by O'Brien on the run.

Score Elks 2, K. of C. 1.

ONLY ONE
The Record in Portsmouth is a Unique One

If the reader has a "bad back" or any kidney trouble, better depend on the remedy endorsed by people you know. Don't Kidney Pills have given great satisfaction in such cases. Portsmouth citizens testify to this. Here is a case of it:

Mrs. C. H. MacIntyre, 130 Bennett St., Portsmouth, N. H., says: "I do not believe I would be alive today had not Don's Kidney Pills come to my attention when they did. I had Bright's disease and suffered for two or three years from nervous and stiffness in my kidneys. I often had such acute pain through my back that I was obliged to stay in bed. The doctors gave me all kinds of medicine, but I did not receive any real benefit until I procured Don's Kidney Pills at Philadelphia's Drug Store. I am glad to say that this preparation brought me prompt relief and eventually cured me. Several years have passed since then, but I still have a high opinion of Don's Kidney Pills. I have told many other people what this remedy did for me."

For sale by all dealers. Price 50 cents. Foster-McMurray Co., Buffalo, New York, sole agents for the United States.

Remember the name—Don's—and take no other.

LaBeau made easy work of it.

FOURTH INNING

The K. of C. were out in order on three fly balls. O'Connor to Hughes who was playing well back. McFarra on a line drive that Sanfacon reached for and it stuck in his mitt, and LaBeau to Hansen.

Davis was out on a pop fly to LaBeau, Cragen to O'Brien and Sheehan fanned.

Score, Elks 2, K. of C. 1.

FIFTH INNING

The K. of C. last effort was fruitless. LaBeau hit to Sanfacon, Mates was safe on Davis dropping his fly in flight. Bertwistle was thrown out by Sanfacon and Reardon went in to bat for Riney and essayed a bunt down the first base line but Swasey bunt him out and the game was over.

This evening the Port and the Y. M. C. A. will battle.

American Polo Players Did Hard Work In Preparation for Meeting with Britishers

Westbury, N. Y., May 27.—The American polo team put in hard work here in preparation for the contests with the English players. In their practice games the men did not spare either themselves or their mounts. On the last day's practice here, several of which are shown in this picture, the team was out for the first time since the accident of two weeks ago at the Rineyway Hunting Club, which nearly cost him his life. Which er or not Harry Payne Whitney pur-

posely distributed his men so as to pay off the players of the English team who sat along the sidelines and watched critically every move, or as was rumored he has selected the team that will defend the cup, remains an open question. Anyway, Captain Whitney would not answer it. The team he worked and worked hard, through two four period contests was, Louis E. Stoddard, No. 1; Devereux Milburn, No. 2; Harry Payne Whitney, No. 3, and Malcolm Stevenson at the back. This remarkable shift in the line confirmed somewhat to the rum-

ored team that may be sent against the Hurlingham challengers. According to the best information obtainable Stoddard is to play at No. 1, Harry Waterbury at No. 2, Milburn, whose fame rests chiefly upon his spectacular riding at back, at No. 3, while Whitney is to play the all important position at back. There are many who profess to believe that the change will materially strengthen the team and that Captain Whitney, with his dash and fire, may be depended upon to ride off the Britons from the goal.

JUDGE PAGE FAVORS THE REAPPOINTMENT OF JUDGE SIMES

Editor of Portsmouth Daily Chronicle:—Dear Sir. Under the law recently enacted by the Legislature, our justice court is abolished and a new court called the District Court will take its place, and a Judge of this new court is soon to be appointed.

It is stated that all the police courts of the state were abolished in order that some Judges who could not be removed in any way under our constitution, might have no court to preside over; and that Democrats as far as possible, are to be appointed in the new court.

I see that there are several candidates for the appointments in our city but no Democrat is among them. It seems to me to be the height of folly and a great blow to the dignity of this new court and the sense of fairness which every decent citizen has, to appoint any of the candidates now active for the place, when Judge Simes fills it so acceptably to all concerned. True, he is a Republican, but politics have never entered into his court or influenced him in any way. He is honest, kindly, capable and dignified, and many a poor fellow has had occasion to thank him for mercy and for a chance to make another attempt to lead a better life.

I do not practice in this court and

hope I shall never be before it in any capacity, but I have been about it frequently and never hear anything but words of condemnation, excepting the fact that the salary has been larger than it is to be in the new court.

I hope Gov. Felker will realize that when no Democrat wishes a position he ought, in justice to the state and its reputation, to reappoint a competent faithful and inoffensive Republican who has pleased the people, and done his duty well, in whom we have faith, instead of any other inexperienced, untried aspirant, to be a Republican, a progressive, or a sore-head.

WESTON PLANS LONG WALK

New York, May 26.—Edward Payson Weston, the veteran pedestrian, announced today that he will leave New York next Monday on a 1500-mile walk to Minneapolis. He plans to reach the grounds of the new Minneapolis Athletic Club on Saturday, Aug. 2.

As he never walks on Sunday during these long journeys he will average about 15 1/2 miles a week or at

most 26 1/2 miles a day, in the coming trip. He will follow the Erie Railroad from New York to Chicago and at the latter city he will turn to the Chicago & Northwestern Railroad for the last leg of the journey.

The first 1-1/2 miles to be covered by the veteran from the starting point at 188th street to the 22d street ferry, will not be counted as part of the journey, this walk being offset by ferrying 2 1/2 miles across the Hudson River. The schedule calls for Weston's arrival in Chicago on Wednesday, July 3, and he is due to reach St. Paul Friday, Aug. 1.

SCHOOL CHILDREN'S MEMORIAL EXERCISES

There will be a departure from the usual memorial exercises in the schools this year, and the exercises instead of being held in the school buildings as in the past, will be held on Wednesday forenoon at the Portsmouth Theatre, at 10 a. m. The exercises are strictly for the scholars and no others will be admitted as the school children will take up all of the available room.

The program will be as follows: Commander Introducing presiding Officer.

Prayer by Rev. J. L. Davis. Remarks by Commander Underhill. Singing. Remarks by Supt. of Schools, Mr. J. N. Pringle.

Remarks by J. S. Doolittle, Patriotic Instructor, Storer Post, No. 1. Remarks by Mrs. Emma S. Wendell, Representing Patriotic Instructor, Storer W. R. C., No. 6.

Singing. Remarks by Mr. F. W. Hartford, Remarks by Major David Urch.

Remarks by Admiral Joseph Foster, U. S. Navy.

Remarks by Adj. M. H. Bell.

Remarks by Capt. J. N. Jones, Past Commander, Storer Post, No. 1, G. A. R.

COUNCIL GIVE A ROAD HEARING

Mayor Badger and the Council gave a hearing on Monday evening on the petition for two new streets. The Mayor and Council in the forenoon visited the proposed lay out.

The first petition is for street extending from Cutts street to Myrtle avenue. Col. John Pender, J. E. Pickering and Joseph Hett appeared in behalf of this petition and stated what they would do for the city if the street was laid out, and of the prospects of building going on on the new extension.

The second was the extension of a street from Lincoln avenue to Orchard street, and Attorney J. W. Kelley and Clarence H. Paul appeared for this petition.

The Council did not take any final action at this time.

EFFORT TO FIX BLAME

Long Beach, Cal., May 26.—Evidence to be presented Thursday at the inquest over the 26 persons who lost their lives in the collapse Saturday of a portion of the municipal pier will bear directly upon the question of who was responsible to the condition of the structure.

Broken timber, showing evidence of decay and the corrosive action of salt air from the ocean, were under guard today, awaiting the inquisition of the coroner's jury. Several construction engineers, who were appointed on behalf of the city of Long Beach, began an official inspection and investigation.

GOV. FELKER TO DISTRIBUTE POLITICAL PLUMS

Concord, May 26.—A large number of political "plums" await the action of Governor Felker. It is a matter of comment that Governor Felker will go before the people in the autumn of 1914 as a candidate for the senatorship, in succession to the Hon. Jacob H. Gallinger, whose term ends March 4, 1915. And it would seem to be probable that Gov. Felker may have his own ambitions for the future in mind when he bestows his political gifts.

New Hampshire was not surprised when the report came back from Washington that Congressman Raymond B. Stevens of the second district, just beginning his first term in the lower house at the national capital, already had promotion in mind. Whether or no he has expressed this desire to his friends, it is a fact that at least one of the more prominent Democrats in the legislature is now openly at work for Mr. Stevens for senator. The number of postoffices and other favors within a congressman's influence will about offset the governor's patronage.

Congressman Reed of the first district will doubtless make a try for another term, and for Mr. Stevens' seat, if he is promoted, mention is now made of James P. Brennan of Peterborough, a prominent member of the legislature.

The transformation of the triple-headed board of bank commissioners into a single bank commissioner means, it is said, the retention in office of the Democratic member of the present board, Richard M. Scammon of Stratham, president of the National Association of State Bank Officials.

Three Republican fish and game commissioners will be succeeded by a single Democrat and the choice is thought to be between State Senator F. J. Boat of Plymouth and Representative Henry W. Osgood of Pittsfield, who won national fame by his legislative plans for the protection of the hornpout.

Three new commissioners in charge of liquor licenses are to be appointed, and the experts are picking Walter Drew of Colebrook, City Solicitor Fred H. Brown of Somersworth and either Major Thomas H. Madigan Jr. of Manchester, Major Edward K. Webster of Concord or Dr. Seth W. Jones of Franklin, chairman of the Democratic legislative caucus.

Ex-Gov. Nathaniel J. Bachelder has been legislated out of the position he has held for 25 years as secretary of the state board of agriculture. If the office created in its place, that of commissioner of agriculture, is filled

by a New Hampshire man, it is thought the appointment will go either to Richard Patten of Plymouth, master of the state grange and manager of the agricultural department at the Rockingham fair or to Prof. Jeremiah W. Sanborn of Gilmanton, whose practical farming operations are among the largest in the state and who was at one time president of the Utah Agricultural college. There is a current report, however, that Governor Felker, who is much interested in the agricultural extension work carried on by the Rockefeller Foundation, will seek on his staff the new head for New Hampshire agriculture.

A new office of importance created by this legislature is that of purchasing agent for the penal and charitable institutions of the state. If Representative Joseph Warren of Rochester the governor's neighbor, friend and efficient legislative lieutenant, will be given "something equally good," it is said.

MAN AND WOMAN SENTENCED FOR LIFE

Salem, May 26.—Marsoob Casparian, indicted for the murder of his wife, Queens Casparian, in a house at 35 Southside avenue, Lynn, Oct. 13, 1911, was sentenced this forenoon to State Prison for life.

When the Superior Criminal Court came in at 9:48 a. m., Justice Chase presiding, Casparian pleaded guilty of murder in the second degree. Hon. W. Scott Peters made a plea for the prisoner, Dist. Atty. Atwell informed the court that the plea was acceptable to the Government. Justice Chase then sentenced Casparian.

Casparian was a resident of Lynn for 25 years preceding the murder. He was twice married. The tragedy, it is claimed by him, was the sequel of intense provocation occasioned by alleged infidelity of his wife. He is a leather worker by trade.

Mrs. Rose Spoggard, aged 27 years, charged with the murder of her husband, Sven Spoggard, in a house at 17 Pearl street Lynn, Feb. 24, was arraigned at 10:30 a. m. and in response to reading of the indictment pleaded guilty of murder in the second degree. Justice Chase at once sentenced Mrs. Spoggard to the woman's prison at Sherborn for life.

Hon. James H. Sisk, counsel for defendant, addressing the court before sentence was announced, stated in substance that findings by "alienists" showed that Mrs. Spoggard was not insane, but mentally deficient, yet conscious of what is right and wrong, that her mind was not more fully developed than the average girl at 12 years of age.

Dist. Atty. Atwell said that the government was satisfied with the plea, and Justice Chase pronounced sentence.

The woman accepted the sentence without visible emotion. She arose calmly and riveted her eyes intently on the clerk of the court. She was neatly attired in a coat and skirt of gray, a delicately striped shirtwaist, cream straw turban hat ornamented with flowers and a large plume. The courtroom was crowded when Casparian and Mrs. Spoggard were sentenced. Arrangements had been made to

try the cases provided the defendants insisted. As a result 30 jurors who had been in service the past three weeks and 195 veniremen were assembled for duty if needed.

BRAKEMAN KILLED BY A TRAIN

Santa Fe, N. M., May 26.—R. W. Berry, for 46 years an employee of the Atchison, Topeka & Santa Fe railway, and for the last 20 years conductor on the Santa Fe-Lamy branch was killed yesterday at Lamy Junction by being crushed between two cars which he was coupling.

Conductor Berry was to have gone to Hildwin, Kan., today to witness the graduation of a daughter.

He left an estate valued at \$200,000 accumulated through fortunate real-estate investments.

FARMERS MUST PAY THEIR HALF

Washington, May 26.—More than 10,000 farmers on Government reclamation projects of the West will be affected by the Supreme Court's decision today that they must pay to the Government the cost of maintaining and operating the various reclamation projects, trading their non-patent.

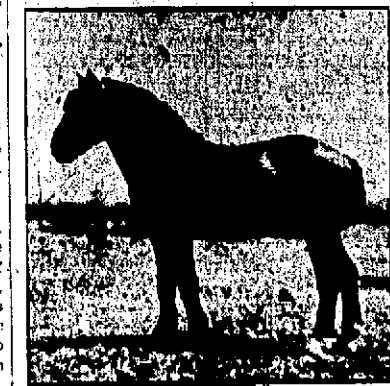

The decision was in the suit of D. S. Baker and others (claimants) vs. the Secretary of the Interior, the Yakima, Wash., project, to have the Reclamation Service enjoined from cutting off the water supply to enforce collection of such charges, imposed under instructions from the Secretary of the Interior in 1902.

Nearly a million dollars have already been collected by this Government. Half a million more is about due.

Justice Lamar announced the court's unanimous decision, and declared that Congress intended the settlers should pay the cost of maintenance and operation.

Time to Change the Rules.

The republican party should take hold of this work of improvement itself, and before the excitement of a new presidential campaign is upon us. Thus only can it prevent the rising of another Roosevelt storm cloud, another attempt to sweep party and principles along the trail of one man's ambition. The old conditions complained of were always bad. They were bad when Roosevelt complained of them. They were bad when Roosevelt and the sainted McKinley made use of them. The time to make changes, however, is between seasons. Roosevelt last fall made some effort to win under the old rules—then tried to have the rules changed while the game was going on. The old rules were so bad that he secured some hearing from the people when he complained, though he had himself used all the devices which the Taft people were using again him. If the party meets this year it can adopt a new system of representation which will make the convention a representative body and insure the nomination of the real party leader over the party he is to lead. The convention will not be able to present a platform of representative opinion, not the mere indoctrination of a candidate's coteries. The next national convention under the new rules will not be a candidate's machine. The same representative character which will guide their choice of a nominee will govern their announcement of a policy, so the platform and the candidate should be broad, national, popular and hopeful of success.—Detroit Journal.

Army and Navy Mishaps.

Both the army and the navy have occasion now to investigate explosions destructive of life. A board of inquiry is already at work to ascertain the cause of the blast in Fort Moultrie, Charleston harbor, which cost the lives of three enlisted men and an officer and seriously injured nine others. In this case the breech block of a rifle which was being fired in night target practice was blown out. Such accidents have occurred before, owing in most cases to the premature firing of the charge and in others to the imperfect locking of the block. In many instances of this kind there is some degree of carelessness in the handling of the mechanism, owing doubtless to rapidity of action and overconfidence born of familiarity with conditions. The naval accident is also of a typical character, the blowing out of a steam pipe on the destroyer Stewart during a speed test off San Diego, Cal. The commanding officer in his report states that the accident was unavoidable. It was probably caused by an unsuspected flaw in the pipe, which yielded under the high pressure of steam in the maintenance of a speed of twenty-five and one-half knots an hour. These mishaps are incidental to the naval service and the American navy is fortunate in having suffered comparatively little from them. Some of the European navies are continually in trouble on account of explosions, notably the French, which has an appalling record of naval catastrophes.—Washington Star.

Keep Your Troubles to Yourself.

If a wife really and truly loves her husband she should be very careful as to how she confides in some woman friend as to any little weakness of her better half. Recent statistics show that seventy-five per cent. of the divorces recorded in the law courts are filed during the first five years of married life. These are the years when the couple have not really learned each others' ways and manners. There should be a solemn pact between husband and wife that makes it prohibitive to tell anyone about the little unpleasantness that is liable to occur in the best regulated families. When the wife tells about these trivial private disagreements to her friend, a different view is added, and the listener, who is always sympathetic, is putting her own construction on the whole affair. The wife should always remember that no girl friend should be so superior to the husband that she should be informed of his directions. If a wife really and truly loves her husband she is sooner or later bound to regret any foolish outburst of confidence. Again she should remember how disloyal it is to her husband by telling some woman friend of their trivial private disagreements. An excellent motto for young married people to adopt is: "Keep your troubles to yourselves."

What the Live Cities Are Doing.

The citizens of Calgary are raising one million dollars for parks, the citizens of Atlanta, Ga., raised \$75,000 in one day for an entertainment fund for the Shriners, and Portsmouth is raising \$25,000 to build a new factory. This paper mentions the above as illustrating that the cities that are going ahead are the ones that have live citizens, especially among the business men. Portsmouth should make short work of raising the funds for a new factory. It is the first real test of the movement to push ahead.

News of Mikado's Illness Kept From Public Until It Had Become Serious

The cablegram announcing that the mikado of Japan was critically ill of inflammation of the lungs and that eight court physicians were in attendance on him was no more of a surprise to the western world than was the physician's bulletin announcing that fact a shock to the people of Tokyo. News of the emperor's illness was kept from the public of Japan until it had reached a point where the physicians began to fear the worst. The emperor while a child showed symptoms of lung trouble, and it was feared many times while he was crown prince that he would not live to take the throne. This illustration shows Emperor Yoshihito in his robes of state.

COMBINATION OF THREE POLITICAL PARTIES GIVES PRESIDENT YUAN CONTROL OF THE CHINESE CONGRESS.

Peking, May 25.—A combination which will give President Yuan Shih Kai virtual control of the senate and house of representatives despite the opposition of the powerful Ku Ming-Tung has been formed by the three smaller parties, namely the Tung Yi-tung, the Kuang Hui-tung and the Min Chu-tung. The coalition was decided upon at a recent meeting of leaders of the three parties at the new building of the department of foreign affairs.

The party decided to merge into one party to be known as the Chin Yu-tung, adopting as their policy the support of President Yuan and the present government with conditions in China are largely improved and an effective administration is finally established. It is understood that the

leaders not only favor the election of Yuan as permanent President, but that they believe in a strongly centralized form of Republican government.

In addition to this, the Hongkong Bankers' Guild comprising all of the Chinese banks in Hongkong, have wired the following congratulatory telegram to President Yuan:

"We congratulate you on your brilliant statesmanship, which has rescued China from a critical situation and restored confidence."

The leading merchants and bankers in all parts of China have also taken a decided stand against a repetition of political dissensions. While they have not officially endorsed either the conservative or the progressive Ku Ming-tung they have let all parties in Peking know that they want harmony as soon as possible.

This view has recently been expressed by the Chinese Chamber of Commerce, a joint action on the part of all the major, backed by what was practically unanimous and veritable guilds in Shanghai, in writing to President Yuan, Vice President Li Yuan-tung, the members of the cabinet, the senate and the house of representatives asking protection against the repetition of any disturbance injurious to commerce.

WOMAN 71 YEARS AN 'EXPERT THIEF'

Octogenarian's Confession Followed by Plea for Prison Sentence.

New York, May 26.—Eighty years old and a thief since she was a child in short dresses was the confession made to Judge Swan in the general sessions court today by Ellen McCarthy, who was charged with grand larceny. Through her attorney she said she was penniless and requested the court to send her to Auburn prison, where she would have a place to sleep and receive three meals a day.

Her attorney said the woman had begun her career of crime at the age of nine, and that the police once had regarded her as one of the most expert thieves in the "profession." She had been arrested numerous times. In her old age she was dubious of her chances at making a living by thieving and requested that a long sentence be given her.

She was remanded for sentence.

MEMORIAL DAY

O, lightly tread, for heroes dead
Are resting 'neath this sod—
The burst of battle long they bore
For freedom and for God.

Their country's call, To Arms! they heard;
They armed without delay
And rushing round the Stars and Stripes,
Undaunted, marched away.

To camp, and trench and battlefield,
Where murderous cannon roared,
And upon a hundred smitten fields
Their valiant life blood poured.

Through the long, weary, battle years
Old Glory floated o'er them—
Where the war bugle sounded—
Charge!

"Our Boys" like heroes bore them.
Mid the fiery hail of musketry,
The flash of sabres bright,
Above the bursting mines of hell!
They flinched not from the fight.

Our sailors bold, the flag unrolled,
Above the billowy ocean, wild,
And crimson dyed its wreck strewn tide,
Till peace upon our country smiled.

And when the Union cause was won
The cause for which they fought,
The flag-draped graves, o'er all the land,
Told how victory was bought.

Then honored live the heroes, all
Who called 'round Old Glory,
May stars to son while time rolls on,
Repeat, repeat their story!

PLAN FOR IRISH POET'S 100TH ANNIVERSARY

Washington, May 26.—Plans have been completed for the celebration Wednesday in the Corcoran gallery of art of the 100th anniversary of the birth of Thomas Moore, the Irish poet. Miss Agnes O'Horman, youngest daughter of Senator O'Horman of New York, will wear the bust of the poet with Killarney roses. Representative Ellison of Mississippi will be the principal speaker, and delegations of Irishmen from Massachusetts, New Jersey, New York and a number of other states will be present.

COURT APPEALS FROM COURT

First Instance in this Country—
Judge Who Sentenced Gompers
Filed Petition Today

Washington, May 26.—The district supreme court here which originally sentenced Samuel Gompers, John Mitchell and Frank Morrison the labor leaders to jail for contempt of court, filed a petition with the supreme court of the United States today asking the highest tribunal to review the decision of the District Court of Appeals, which affirmed the conviction of the three men but reduced their sentences.

At the same time the high court had under consideration another application for a review, on a writ of error presented by attorneys for the convicted men.

Gompers originally was sentenced to 12 months, Mitchell to 9 months and Morrison to 6. The District Court of Appeals affirmed the conviction and reduced Gompers sentence to 30 days and Mitchell's and Morrison's to a fine of \$500 each.

Attorneys for the labor leaders ask a review and reversal of the lower court on many grounds; the District Supreme Court against which it is lodged (the men committed contempt in the noted Bucks Stove and Range Case, asks review on the ground that the Court of Appeals had no authority to reduce the sentences after affirming the convictions.

Those best informed on the history of jurisprudence in the Supreme Court of the United States know of no other instance in which one inferior court had applied directly to the highest tribunal to reverse another inferior court.

1913 NEW INNOVATION

The easy fitting, patent self-adjusting lay sweat band (doing away with that uncomfortable stiff feeling of former years) is a new idea found in this season's straw hat of Lamson & Hubbard make.

In calling your attention to the summer styles for 1913, we respectfully advise you that all of our first quality straw hats bear our trade mark, our name on the sweat band or lining of the hat. These hats are on sale at your local dealers, where you will receive the same careful attention and satisfaction that would accrue from a personal call at our Boston retail stores. The finest in straw obtainable, the fit, the bright lustre, finish, shape and workmanship all tend to make the Lamson & Hubbard straws supreme in every way. The heat of summer has less terror for the man who is equipped with a well selected straw hat. Not only is such a hat more comfortable for the wearer, but it gives an appearance of coolness and neatness. It is that effect as well as the fine wearing qualities that makes the Lamson & Hubbard hats so desirable for fine head wear.

MUCH EXPECTED OF STEIN BILL

It will be of interest to progressive citizens of Portsmouth that Gov. John K. Tener of Pennsylvania has affixed his signature to the "Stein Bill," introduced by Representative A. C. Stein of Pittsburgh, and applying to second-class cities. The only cities of the second class in Pennsylvania are Pittsburgh and Scranton, and the adoption of the law was really secured by Pittsburgh citizens. The law makes provision for a reduction in the taxation of buildings. Under this law, the local government of each city is given a plan to follow in fixing the tax rate. The first year, the rate of taxation on buildings is to be reduced 10 per cent. The second year will see no change, but in the third year the rate of exemption of buildings will be increased to 20 per cent. A further reduction is to be made every third year, so that at the end of fourteen years all buildings will be exempt from taxation to the extent of 50 per cent. It is anticipated that the benefits will be so pronounced, that buildings will speedily be made wholly exempt from taxation, just as was done in Vancouver, B. C., where buildings have been exempted for some years, with resultant marvelous growth of the city, as narrated in detail in an article by Counselor Thurman C. Stickney of New York, published in this paper last March.

Those who worked for the "Stein" bill during its progress through the Pennsylvania legislature, simply appealed to the common sense of the members of the legislature. A pamphlet was prepared by the Civic Commission of Pittsburgh and presented to each member of the legislature, claiming that the "Stein" bill would benefit the following:

All renters—for the reduction in taxes on buildings, decreases rent to the same extent.

Manufacturers—after building factories, taxes would be less than in other cities.

Every property owner—if he has made substantial improvements on his property.

Every real estate broker—real estate transactions would be stimulated.

The rank and file of workers—building and industry would increase and work be more plentiful.

The city—Pittsburgh would replace slums with homes and factories.

These arguments appealed to the legislators, and could not be controverted. As a result, the "Stein" bill passed both Houses with practically no opposition.

It may also be interesting to Portsmouth citizens to know how it happened that Pennsylvania has written into its statute books the most progressive law of any State in the Union.

A few years ago, Boards of Trade, Chambers of Commerce and other civic organizations engaged the services of lecturers familiar with the manner in which the exemption question had been handled in Vancouver and elsewhere, to address their members. Among these lecturers were John Z. White, Charles Frederick Adams, and John W. Rengough, all of whom have addressed Elizabeth audiences on the same subject; Mr. White's lecture having been delivered in the Murray street school last winter, pursuant to an arrangement made by Superintendent of Schools Richard E. Clement.

At first these speakers were engaged by the Pennsylvania civic bodies, not because the members had any faith in what the lecturers advocated, but simply because they advocated something new. Nearly every civic organization in Pittsburgh has heard these lecturers several times, and the result effected was that the leading citizens of Pittsburgh were persuaded to look at the subject of taxation from a different angle from

what they had done before.

Pittsburgh's mayor, W. A. Magee, is known as a man who does things, and it did not take him very long to discover what a change in the matter of taxing buildings would do for Pittsburgh. His remarkable executive ability is denoted by his then sending his leading expert on taxation, T. C. McMahon, straight to Vancouver. After a painstaking investigation not only in Vancouver but in other cities in Western Canada, Mr. McMahon made a report to Mayor Magee, which showed beyond a doubt that the exemption of buildings from taxation was in very large measure the cause of the rapid development of those Canadian cities. It may be mentioned that at the present time Vancouver, which in 1910 had about 80,000 population, is completely outstripping all Canadian cities in building operations. Vancouver, in a single month last fall, issued \$3,500,000 building permits, and is maintaining its lead. All these facts made an impression on Mayor Magee, who determined that if such a system of exemption of buildings from taxation were adopted in Pittsburgh, that city would forge ahead of cities which were competing with Pittsburgh for business. He thereupon secured one of the leading real-estate men of Pittsburgh, W. D. George, to draft a bill similar to the one used by Vancouver. Mr. George not only did his work faithfully in drafting the bill, and in getting it presented to the House by Representative Stein, but also followed the bill step by step through the legislature in a most diplomatic fashion. He met every argument advanced by skeptical legislators, and in such a convincing manner that they were forced to admit the logic of the bill. He was also ably assisted by Representative Stein. The Pittsburgh Civic Commission, too, was very active in supplying literature to the legislators, explaining the advantages of the bill. With these forces back of the bill, and because of the popularity of Mayor Magee in the State, the bill was readily enacted; it was signed by the governor and became law on the 18th last.

It is a matter of additional interest that Mayor Magee, at the last session of the Pennsylvania legislature, with the aid of these same forces, succeeded in having a bill passed exempting machinery from local taxation in cities of the second class.

New Homes Are Being Opened Every Day Everywhere.

There's a hint in that, Mr. Storekeeper.
Do you catch it?
THE HERALD'S advertisers know what that means.
It means that people will want rugs, china, draperies, crockery, silverware, furniture, bedding, kitchen utensils and dozens of other things.
It is customary for some stores in the larger cities to set apart one day each week on which to advertise only things for household service. All other lines are eliminated on this one day.
It is Housekeeper's Day.
Very good policy for smaller storekeepers in every part of the United States to follow.
The stores that do so, work up a good and lasting trade, for very soon thrifty house-keepers get in the habit of watching for such advertisements and reading them closely.

Patronize local business houses. You can save money, and it is a duty you owe to your city.

BIG CROWDS WITNESSED THE CIRCUS PARADE

Sautelle's Circus Is Exhibiting at the Christian Shore Grounds Today.

The Sautelle Circus, the first to appear here this season, arrived on schedule time this morning from Newburyport where they exhibited on Monday to a large patronage.

When the parade passed through the principal streets and Market Square there was a large concourse of people out to witness it and they were well repaid as it was all that could have been anticipated. In fact it was larger, greater, than expected. This, dear people is in the Big Show class. Cages and cages of rare animals were out; there was a Wild West contingent of real merit—for and away ahead of Ranch 101. All this is said advisedly. All the cowboys, cowgirls, Indians and all were the real thing—all habits of the wild and woolly.

As this paper goes to press news from the show grounds comes that the tents are packed with delighted audiences. Oscar Lowande, the greatest of all living bare back riders, is ambling the people with his unparalleled feats of amazing skill. George Rollins for ten years with Frank Boslock, the animal king, is giving side show entertainments that are unequalled in all the world.

The greatest showman of them all—Sig. Sautelle, is selling tickets with the skill he acquired when an ordinary magician, touring up and down the canal forty years ago.

The writer would advise all—and everybody to attend the big shows tonight. They have the endorsement of all the eastern states towns for rare excellence. What more need he say? These great shows are in Dover, N. H., tomorrow. Thursday they will exhibit in Rochester; next day Sanford, Me.; then Rockland, Me.

The peculiar feature about these Sautelle shows is that everyone is astonished at their gigantic size. The tops are really big enough for a three ring show; but Sig. Sautelle, the wizard of Showdom, says: "We give the people astounding amazement." And, after all, the real crux of interest is to astonish folks. Barum could not have expressed a more pregnant and illustrating principle.

PORTSMOUTH THEATRE PROGRAMME

JURY SELECTED.

Roosevelt Case for Vindication Was Commenced This Morning.

Marquette, Mich., May 26.—A suit involving allegations of drunkenness on the part of a former President of the United States, will be heard here beginning tomorrow, by a jury composed of four miners, three teamsters, two farmers, one blacksmith, one locomotive fireman and one woodsman.
The plaintiff, Col. Theodore Roosevelt, who is suing George A. Newett, an Ishpeming newspaper publisher for \$10,000 damages, because of an editorial charging him with drunkenness, probably will be the first witness tomorrow.

As soon as the jury had been sworn Judge Richard C. Flannigan ordered the jurors locked up and kept in confinement until a verdict is rendered in court.

"Gentlemen of the Jury," said the

court, "until you have rendered a verdict in this case you will be kept in close confinement so that you will be protected from any possible influence other than the testimony which you will hear in the court room. I have decided on this to see that you are not approached by outsiders. If any one attempts to talk to you about the case I want you to report to the court, if possible giving their names. I wish to caution you against coming to any final conclusion in your minds as to the merits of the case, until you are instructed to deliberate on a verdict. Don't talk among yourselves about it. You may write to your families but no letters will be delivered to you unless you agree that they may be first opened by the court."

Two bailiffs were then sworn by the clerk to keep careful watch and ward over the jurors and not allow them to communicate with any one, including the bailiffs, except by permission of the court.

Court then adjourned until tomorrow morning at 9 o'clock.

Col. Roosevelt was present throughout the night session, which did not commence until 11 o'clock.

The defendant, Newett, worn out during the afternoon session, was not present.

RAILROAD NOTES

Edgar N. Stearns, for nine years cashier at the Boston & Maine freight office, Concord has resigned and is temporarily succeeded by James N. Greeley, a travelling inspector.

Conductor S. P. Howell of the Portsmouth and Concord passenger train returned to duty today after a leave of three months.

Ringling Brothers circus in transportation over the Boston & Maine lines will be made up of 77 cars, 40 flats, 20 stock cars, 16 coaches and the private car Wisconsin.

The Boston & Maine railway private car No. 666, occupied by Vice-President Timothy E. Lymene and party was attached to the Montreal express from the North Station at Boston on Monday for Montpelier, Vt.

Complete electrification of the New Haven railroad between New York city and New Haven will be completed about September 1. About August 1 the New Haven's new electrical repair shop at Van Nest in New York will start operation.

The New Haven now has 99 electric locomotives and 23 motor cars. At present repairs on locomotives are being made at the New Haven shops. These shops at Van Nest will cost about \$650,000. The power for operation of shop will be supplied by the road's power plant at Cos Cob, Conn.

Two thousand employed by the New Haven in car shops at Readville are affected by curtailment of working hours operative today. The men will work only five days a week, eight hours a day, against 54 hours a week heretofore.

Danger of a strike of the New Haven railroad clerks has been averted by acceptance of an arbitration plan.

The Pennsylvania law requiring payment of railroad wages twice a month goes into effect on July 1. A similar law has been effective in New Jersey about a year. Substantially the same proposition has also been adopted by a number of other states, but has never been incorporated into federal regulations.

The New Jersey law has practically doubled the expenses of paying off employees in that state. In some cases on lines crossing the state boundaries, wages have been paid twice per month in Pennsylvania as well as in New Jersey to avoid dispute.

THE FORMER MRS. CLEVELAND

Wife of Dead President to Locate at York Harbor.

Mrs. Francis Folsom Preston, former wife of the late President Grover Cleveland, was in this city on Monday on her way to York Harbor, where she is to pass the summer. Mrs. Preston is said to have selected one of the cottages at this summer resort and will occupy the same next month. It is understood that she will dispose of her valuable property at Buzzards Bay and Tamworth, N. H., where the dead president passed so many enjoyable seasons. She expressed much delight with York Harbor and informed the real estate agent, Bridges, that she was sorry she did not come earlier in the season in order that she could have secured something better for a house on the seashore. She left late in the day for Buffalo to attend the funeral of her cousin.

SOME HEAVY SENTENCES IMPOSED

Judge Young Continues Session and Most of the Criminal Cases Are Disposed Of.

Superior Court came in Monday at ten o'clock with Judge John E. Young of the Supreme bench presiding, and under the program the entire week will be given over to the criminal docket, something out of the ordinary for the usual rule has been for the County Solicitor to work in his criminal cases at odd times, making it drag through the entire session. Under the present rule County Solicitor Capill on Monday made a big hole in the criminal docket and today will still further reduce it.

One case was scheduled for trial this forenoon but the defendant finally pleaded guilty and took his sentence.

Andrew Charlton, Londonderry, indicted for attempt rape, was called on a former indictment, and when County Attorney Capill got through reading his record which is a bad one, Andrew was sentenced to not less than four or more than five years in the state prison.

Charles B. Burgett of Exeter, pleaded guilty to breaking and entering, and he was sentenced to not less than four or more than five years in the state prison.

James Nash, Nashua, breaking and entering, first offense, was sentenced to not less than four or more than five years in the state prison.

Arthur Proctor, Candia, assault on his wife, third offense, was sentenced to not less than four or more than five years in the state prison.

Isaac Walters, colored, Portsmouth, indicted for assault with intent to kill John Robinson through his counsel S. W. Diney Jr., entered a plea of guilty to aggravated assault, which Mr. Capill accepted, as all of the witnesses were way down in Penney's. He has been in jail for several months and he was sentenced to five months more in jail.

John Hanson, Portsmouth, larceny, pleaded guilty. He is wanted in several places for doing just the trick he pulled off here, viz. going into a house hiring a room and then ransacking the house. He has served time before and has a bad record. He was sentenced to not less than three years or more than five years in the state prison.

George Jones, Candia, charged with rape, Attorney General Tattle, appeared with County Solicitor Capill in this case and Jones through his Attorney John L. Mitchell of this city and George W. Hill of Concord, entered a plea of not guilty. Tattle requested the case and urged a heavy sentence. Attorneys Hill and Mitchell spoke in behalf of the prisoner who has already been in jail for two years awaiting trial. Dr. George L. Capill of Raymond was heard briefly and at the conclusion Judge Young imposed a sentence of not less than five or more than seven years in state prison.

The jury were excused early in the afternoon until today at ten o'clock.

U. S. UNREADY, TAFT WARNS

Raps Congress for Inadequate Army and Navy.

New Haven, Conn., May 26.—Former President William H. Taft, in his concluding lecture at Yale today on "Some Questions of Modern Government," declared the United States was "utterly unprepared for war," and criticized Congress for failure to provide an adequate army and navy.

Concluding, he said:

"Much of the literature written about what would happen in the event of an attack by Japan, suppose they could do a lot of impossible things and that, in the meantime, we would be doing nothing; but we must remember that, in the past, we have had great luck and it might not continue."

'DROP LAPDOGS FOR BABY,' SAYS WILEY

Washington, May 26.—"It's high time American women were changing their lapdogs for babies and venting their maternal instinct which prompts them to express a fuzzy dog on the object that nature intended them to," said Mr. Harvey W. Wiley.

"There are thousands of homeless babies today and thousands of homeless wives, each needing the other. Some of the best loved children I have known have been adopted babies, and there are many thousands of excellent genology who today are without homes. They would fill a woman's lap and heart much better than any dog."

Afternoon Session

Charles Lloyd, and Manning Stevens, breaking and entering, first offense, continued for sentence, and to report weekly to Chief of Police Hurley.

At the afternoon session there were five young boys up from the Juvenile Court, who were heard before Judge Young in his chambers, and they were all paroled during minority in the custody of Probation Officer McDonough, and for failure to live up to their parole they will be committed to the Industrial School.

Tony Baro, Portsmouth, an Italian charged with assault with intent to kill Caspar Ronto, pleaded guilty through his counsel Attorney Mitchell to aggravated assault, and he was fined \$50 and costs at \$25 and a year's sentence to the House of Correction was suspended.

Charles Ronto, indicted for assault with intent to kill Tony Baro, pleaded guilty to aggravated assault and was fined \$25 and costs and a year's sentence suspended.

Louis Cardin, Newmarket, indicted two years ago for breaking and entering, pleaded guilty. He has been several times in the lower courts and his case was held over until Tuesday for sentence.

U. S. UNREADY, TAFT WARNS

Raps Congress for Inadequate Army and Navy.

New Haven, Conn., May 26.—Former President William H. Taft, in his concluding lecture at Yale today on "Some Questions of Modern Government," declared the United States was "utterly unprepared for war," and criticized Congress for failure to provide an adequate army and navy.

Concluding, he said:

"Much of the literature written about what would happen in the event of an attack by Japan, suppose they could do a lot of impossible things and that, in the meantime, we would be doing nothing; but we must remember that, in the past, we have had great luck and it might not continue."

'DROP LAPDOGS FOR BABY,' SAYS WILEY

Washington, May 26.—"It's high time American women were changing their lapdogs for babies and venting their maternal instinct which prompts them to express a fuzzy dog on the object that nature intended them to," said Mr. Harvey W. Wiley.

"There are thousands of homeless babies today and thousands of homeless wives, each needing the other. Some of the best loved children I have known have been adopted babies, and there are many thousands of excellent genology who today are without homes. They would fill a woman's lap and heart much better than any dog."

Afternoon Session

Charles Lloyd, and Manning Stevens, breaking and entering, first offense, continued for sentence, and to report weekly to Chief of Police Hurley.

At the afternoon session there were five young boys up from the Juvenile Court, who were heard before Judge Young in his chambers, and they were all paroled during minority in the custody of Probation Officer McDonough, and for failure to live up to their parole they will be committed to the Industrial School.

Tony Baro, Portsmouth, an Italian charged with assault with intent to kill Caspar Ronto, pleaded guilty through his counsel Attorney Mitchell to aggravated assault, and he was fined \$50 and costs at \$25 and a year's sentence to the House of Correction was suspended.

Charles Ronto, indicted for assault with intent to kill Tony Baro, pleaded guilty to aggravated assault and was fined \$25 and costs and a year's sentence suspended.

Louis Cardin, Newmarket, indicted two years ago for breaking and entering, pleaded guilty. He has been several times in the lower courts and his case was held over until Tuesday for sentence.

Arthur Proctor, Candia, assault on his wife, third offense, was sentenced to not less than four or more than five years in the state prison.

Isaac Walters, colored, Portsmouth, indicted for assault with intent to kill John Robinson through his counsel S. W. Diney Jr., entered a plea of guilty to aggravated assault, which Mr. Capill accepted, as all of the witnesses were way down in Penney's. He has been in jail for several months and he was sentenced to five months more in jail.

John Hanson, Portsmouth, larceny, pleaded guilty. He is wanted in several places for doing just the trick he pulled off here, viz. going into a house hiring a room and then ransacking the house. He has served time before and has a bad record. He was sentenced to not less than three years or more than five years in the state prison.

George Jones, Candia, charged with rape, Attorney General Tattle, appeared with County Solicitor Capill in this case and Jones through his Attorney John L. Mitchell of this city and George W. Hill of Concord, entered a plea of not guilty. Tattle requested the case and urged a heavy sentence. Attorneys Hill and Mitchell spoke in behalf of the prisoner who has already been in jail for two years awaiting trial. Dr. George L. Capill of Raymond was heard briefly and at the conclusion Judge Young imposed a sentence of not less than five or more than seven years in state prison.

The jury were excused early in the afternoon until today at ten o'clock.

EVERYBODY CONNECTED WITH FIGHT OVERHEARD

Calgary, Alberta, May 26.—Warrants were issued early today for the arrest of Tommy Burns, who staged last Saturday's bout in which Luther McCarthy met his death; William McCarthy, McCarthy's manager; Referee Ed. Smith and several trainers and attendants.

This developed following an order from the Attorney General at Edmonton, that all principals in the arrangement for the bout be arrested, and the Northwest mounted police were instructed to execute the order immediately. It is understood that the men arrested will be charged with complicity in manslaughter.

Arthur Pelky, McCarthy's opponent, who was arrested on a charge of manslaughter, was to be given a preliminary hearing in police court today, but owing to the decision last night of the physicians who conducted the autopsy that McCarthy's death resulted from dislocation of the neck and no heart failure, as had first been announced, it is anticipated that the hearing will be adjourned to await the result of the coroner's inquest this afternoon.

Dr. Mosher, who conducted the autopsy will lay his findings before Coroner Costello's jury, and it is expected that body will reach an early decision.

OBITUARY

Mrs. Mary S. Goodwin

Mrs. Mary S. Goodwin, wife of James W. Goodwin died at her home in Lynn on Monday aged 74 years, 10 months and 21 days. She was a native of York, Me. For a number of years she resided in this city, her husband conducting the Kearsarge Hotel. Besides her husband she is survived by one daughter Mrs. Charles Loomer with whom she made her home. Funeral services will be held this Tuesday evening and the body will be taken to South Berwick on Wednesday for burial.

Martin Moore

Martin Moore, a resident of East Boston for 40 years, who died at his residence 185 Mount Princeton street, East Boston, late Saturday night, was well known in Grand Army circles throughout the state.

Born in England, July 16, 1845, Mr. Moore came to this country when an infant with his parents. He was one of a family of four children. When the Civil war broke out he enlisted in the 13th New Hampshire Volunteers, serving throughout the war as a drummer boy.

Afterward Mr. Moore engaged in the shoe business for a number of years. For five years he had been employed as a clerk in P. A. Campbell's office in the superior court.

When the formation of the G. A. R., posts took place Mr. Moore was one of the first to join Joseph Hooker

Post 22. He also was a member of the Odd Fellows and Masons. He was a 32nd degree Mason.

Mr. Moore is survived by two daughters, Mrs. Louise Zepperman, and Mrs. S. W. Brooks, two brothers, Elmore of East Boston, and Thomas of Portsmouth, and a sister Mrs. Frank W. Rice at Portsmouth.

The funeral was held from his late residence this Tuesday afternoon.

SAYS DESLOVERS BORROWED BOAT

State Witness Tells of Fishing Trip To Spot Where Woman's Body Was Found

Providence, R. I., May 26.—In its attempt to prove that Henry Deslovers killed Mrs. Angelo Parmentier in Woonsocket last June and threw her decapitated body into the Blackstone river, the prosecution today put several witnesses on the stand who testified that the boat was missing on the night of the murder is alleged to have been committed.

Julius Verfallie said that on the morning of June 5, then eight after the woman is alleged to have been murdered, Deslovers borrowed a boat from him to go fishing at Dame's Grove where the headless body was afterward found.

It is claimed by the state that Deslovers went at the time to take the body out into the river.

In its efforts to prove that Deslovers made contrary statements after the woman's disappearance, the state brought out testimony from Mrs. Emma Capell, his neighbor that he told her on June 5, four days after Mrs. Parmentier disappeared that she was well and working at the mill.

Mrs. Mary Corleau said that he told on June 5 that Mrs. Parmentier had gone away and had taken all her clothing.

SUPPOSED TO ANTEDATE INDIANS

Mankato, Minn., May 26.—The Minnesota Historical Society will make investigations next month in the town ship of Cambria, where have been found evidences of habitations which are believed to antedate the Indians. Preliminary excavations have brought to light many implements of domestic use as well as of warfare and much pottery.

Mrs. Edgar Tomlinson of Cambridgeport, Mass., a former resident of this city is visiting relatives here and renewing old acquaintances.

Dies at His Work

D. H. Blackwell, employed as a weigher at the Charlestown navy yard for the past sixteen years, died suddenly at his work, from heart failure. He was 71 years of age, a Civil war veteran and a resident of Malden.

A Good Thing to Know.

Woodworkers and laborers are still wanted at the yard. Under the civil service, men who are on the list for other branches of the work and taken on to perform any work they are capable of doing. Thus a man who wants to work as a laborer or a machinist, or a pipe-fitter, can do so by applying at the labor board. A man can now register for as many trades as he wishes and when not employed at one he may find another.

REFUTES STATEMENT.

Son of Mrs. Dowaliby Says That His Mother's Death Was Accidental.

The following letter from Abraham Dowaliby, son of Mrs. Susan Dowaliby, who was fatally burned last week, is self explanatory:

Editor of the Portsmouth Herald:

Dear Sir: I trust you will insert the following explanation in regard to the death of my mother, Mrs. Susan Dowaliby. The facts in this case are as follows: That it is absurd to think that my mother set her clothes on fire on purpose; her clothes must have caught fire against her will and wishes. The story circulated that she had lost money through investment in phonographs, etc., is wrong, as she neither invested any money nor lost a dollar. It is true that she did not like the phonograph and was homesick. This is the reason that caused her to return to this city, dear to her heart. In closing I beg to thank the public for the sympathy expressed in behalf of my brother Moses, who is away in Brazil and myself.

Respectfully yours,
ABRAHAM DOWALIBY.

NURSING BOTTLES

For Young Pigs at the Navy Yard.

Private Vianella of the marine guard at the naval prison is a busy man, not alone with his military duties but with the additional work of bringing up five small pigs on nursing bottles. The young porkers are a week or more old and were weaned on account of the mother pig failing to take proper care of her young. The baby pigs appear to like the bottles and are consuming no small amount of milk.

The prisoners who assist the keeper of the young swine believe that there will be no better pork on the market than that which comes from the prison stock yard when these piglets are ready for the butcher.

"HONOR OF A SOLDIER"

This is a great Memorial Day picture. Torn by the conflict between love and discipline, a soldier leaves the battle line to rescue his family from their burning home. He is pursued as a deserter, but escapes and goes to headquarters where he tells his story and is cleared. Every true American ought to see this picture.

Recalls Old Time Band Men He Played With

George W. Rollins of the Owner's Managerial staff of Sautelle's circus, was delighted to stop from his private car this morning to find himself back among the scenes of his boyhood. He met a representative of The Herald this morning, and talked interestingly of Portsmouth 36 years ago, when he played in the American band of Rochester and also in the Marine band here. Said he "I remember all the old bandmen, and recall Charles Lord, Ralph Behnwald, and John D. Carter. Portsmouth is a dear old city to me."

He inquired about a number of old friends and then referred to his 30 years of life in the circus and show business. He had many warm words of praise for Sewall Webber, the bandmaster of Rochester.
